DR. H. W. JORDAN, *Chairman*
State Highway & Public Works Commission
Raleigh, North Carolina

Dear Dr. Jordan:

Transmitted herewith is the biennial report of the Prison Department of the State Highway and Public Works Commission for the fiscal years 1950-1951 and 1951-1952, containing statistical data and detailed information of the Prison Department.

Respectfully submitted,

WALTER F. ANDERSON,
Director of Prisons

FOREWORD

This report, authorized by and compiled for the General Assembly of North Carolina, summarizes statistical data and operations of the Prison Department. It does not include audits, which are covered in the biennial report of the State Highway and Public Works Commission, copies of which may be obtained by writing The Auditor, State Highway and Public Works Commission, Raleigh, North Carolina.

Significant Changes in the Prison Department from 1950-52

I—CHANGES IN DIRECTORS

Mr. J. B. Moore, who was Director of Prisons during the fiscal year 1949-50, resigned, and Mr. John M. Gold was appointed Director on August 15, 1950.

Mr. Gold used as his guide, and placed in operation some of the recommendations made by Dr. Austin MacCormick and employed Dr. J. B. Whittington to make a thorough study of the medical service in the Prison Department.

Mr. Gold resigned to become City Manager of Winston-Salem, N. C. and on August 1, 1951, Mr. Walter F. Anderson was appointed Director of Prisons.

Mr. Anderson took up the program where Mr. Gold left off and has developed a program which embodies most of the MacCormick recommendations, with the valuable assistance of the Prison Advisory Council.

II—CHANGES IN PRISON LABOR COSTS

In September, 1950, the State Highway and Public Works Commission raised allowance per man day for prison labor from \$2.75 to \$3.00; the additional monies were to be used to supplement the Youth Camp program, to expand Prison Industries and make other needed improvements. On October 1, 1952 the rate per man day for prison labor was increased from \$3.00 per man day to \$3.50 per man day to take care of the change from a 5½ to a 5 day work week for State Highway and Public Works Commission Personnel.

In the above change, the Prison Department sustained a financial loss of approximately \$116,653.69, therefore the State Highway and Public Works Commission again raised the allowance for prison labor, effective December 1, 1952, from \$3.50 to \$3.60 per man day to take care of this loss, which left the Prison Department in approximately the same financial position it was in before changing from the 5½ day work week, the weekly pay per prisoner being \$18.00 per week.

III—THE REHABILITATION PROGRAM

While there is no unanimous agreement as to which should be placed first, the payment for one's crime or rehabilitative training toward civil life, the importance of the latter has been recognized.

Among the initial steps in North Carolina was the Session Laws of 1947, authorizing and directing the Segregation of Youthful Offenders (G.S. 15-210 et seq.). Again in the Session Laws of 1949

the General Assembly authorized and empowered the State Hospital Board of Controls to convert the Prisoner of War Camp at Butner into a modern prison camp for 100 youthful and first term prisoners (G.S. 148-49.1 et seq.).

There are now four youth camps in the North Carolina Prison System: the Albemarle Camp, Stanly County Camp, the Gates County Camp and the Beaufort County Camp.

On December 1, 1952, at Raleigh, North Carolina, where maximum rehabilitative facilities were available, the second Youth Rehabilitation Camp was set up; its objective was to parallel the Butner Youth Program giving colored youths the maximum experiences toward rehabilitation.

The Rehabilitation and Training Program now includes six of the major services in the Prison Department. These include Classification, Education, Consolidated Records, Religious and Moral Training, Medical Services and Recreation. A professionally trained and well qualified person serves as administrative supervisor of each of these divisions.

The division of Classification, Education and Recreation have recently been activated. In classification we have a psychologist who serves as head of the Division and is an important member of the Classification Board. Our Classification service has developed a program of individualized study of prisoners. This service utilizes information secured as a basis for retraining and rehabilitation of the prisoner. The program seeks to promote a better understanding of the prisoner as an individual, to assure proper assignment, to assist the prisoner to better adjust in the total prison program, and to coordinate the efforts of all prison officials in their rehabilitative work. The Prison Classification Board meets twice each month to study and recommend a treatment program for prisoners who have acute problems. A special Classification Panel meets twice each week to study and make assignments of all new admissions to Central Prison.

The Education division develops, coordinates and supervises the educational experiences in the Prison Department to meet the training and rehabilitation needs of the prisoners. The educational program is seeking to give prisoners certain general educational opportunities and as much training in vocational activities as is consistent with sound prison administration. Use is being made of the test results to determine placement of prisoners in training experiences compatible with their aptitudes and interests.

The Recreation Division has been activated with a well trained supervisor in charge of the program. This division is responsible for the organization and supervision of a recreational program in the institutions and camps. The purpose of the recreational program is to promote the worthy use of free time, the building and maintaining of morale, the opportunity for group participation in play, the opportunity for expression of choice and the therapeutic value

of appropriate recreation for convalescents.

The Rehabilitation and Training Program is seeking to coordinate all prison services that can be used for the purpose of reclaiming and retraining offenders against the law.

IV—SIGNIFICANT STUDIES OF THE NORTH CAROLINA PRISON SYSTEM—

MacCormick Report—One of the first acts of the Prison Advisory Council, together with the North Carolina Conference For Social Service, was to obtain the help of the State Highway and Public Works Commission in getting an experienced penologist to make an impartial survey of the North Carolina Prison System.

Dr. Austin H. MacCormick made this investigation in early 1950, submitting his report to the Prison Advisory Council and the State Highway Commission on June 7, 1950.

A summary of his recommendations may be seen in the report of the Prison Advisory Council just rendered.

Many of his recommendations have been accepted and are now in practice; the rehabilitation program and some other needed changes are well under way.

Whittington Report—One of the recommendations of Dr. MacCormick was for a survey of the Prison Department Medical Program and a survey of medical services in the Road Camps. Dr. J. B. Whittington, M.D., of the Hospital Survey and Consultation Service was called in and completed this work by July 1951, at which time his report was submitted to the Director of Prisons.

V—CHANGES IN PRISON DEPARTMENT PERSONNEL AND JOB CLASSIFICATION

Positions in the Prison Department were classified by the State Personnel Department as of October 1, 1950. This classification established a relationship of one job to another and a uniformity in pay for comparable work.

This classification and the change in the philosophy of operation of the Prison System is paying off in more job security and less personnel turnover.

The turn over in prison guards is large because of the long hours and present salary schedule. Over a period of time this turn over can be reduced through salary adjustment and better working hours.

The table of organization for the Prison Department follows:

TABLE OF ORGANIZATION

COST OF OPERATIONS:

The cost of operation of the Prison Department for the last Biennium has approximated very closely, changes in the cost of living as is best reflected in the per capita cost per prisoner per day for maintenance and support.

For the prisoner population average of 9,013 for the year 1950-51 the per capita cost per prisoner per day was \$1.9262. By including administrative and overhead charges of \$.1191 per prisoner per day, the per capita cost is raised to \$2.0453. It is to be understood that the latter cost does not include profit or loss resulting from Prison Industries and farming operations.

For the prison population average of 9,153 for the year 1951-52 the average per capita cost per prisoner per day for maintenance and support was \$2.0904. By including the \$.1259 per prisoner per day for administration and overhead charges, the per capita cost per prisoner per day is raised to \$2.2163. It should again be noted that the last figure does not reflect profits or losses resulting from the operation of Prison Industries and Farms.

A detailed statement showing the cost of operations is included in the audit of the accounts of the State Highway and Public Works Commission which was prepared by the State Auditor's office.

A summary statement of operations may be seen below:

SUMMARY OF OPERATIONS

PRISON INDUSTRIES

The North Carolina Prison Department is now operating an industrial system of seven industries which are set up with separate operating Budgets. This is in addition to the sewing room at Women's Prison, Laundries distributed over the State and five canneries which run only during canning seasons.

These industries serve the dual purpose of bringing some financial return, and providing vocational training to prisoners which will have some carry over into post-release life.

The latter purpose is receiving increasing importance in the new rehabilitation program. This is especially true from the standpoint of education and classification.

Products of Prison Industries in North Carolina are still on a primarily State-use basis; however, sales to other State Departments compete with commercial products.

Since Prison Industries must be relied upon for financial return, an operation statement for the biennium is presented below:

STATEMENT OF INDUSTRIES

THE FARM PROGRAM

The farming operation for 1950-52 has been isolated from the Budget in order that it can be studied objectively.

To decrease the deficit and increase the efficiency of our farming operations the following steps have been taken to:

1. Establish a uniform inventory for all prison farms throughout the state.
2. Survey the food needs of the Prison System as a whole and encourage the growth of crops which will meet these needs, as nearly as possible.
3. Instigate a soil testing program to follow the recommendations of the N. C. Department of Agriculture.
4. Activate an extensive canning program which will meet the needs of the Prison Department. This program was worked out in cooperation with the Horticulture Department of N. C. State College of Agriculture and Engineering in Raleigh.
5. Grow and transfer crop seeds which can be grown profitably and are suited to the climates of North Carolina.
6. Grow horticultural plants and transfer these plants to prison farms less suited to plant propagation.
7. Encourage every Superintendent and Farm Foreman to maintain cost sheets on each farming operation, in an effort to eliminate unprofitable ventures.

THE PERMANENT IMPROVEMENT PROGRAM

Since the State Highway and Public Works Commission made allocations to the Prison Department in 1949 for the present permanent improvement program; a progress report is given through the fiscal year 1951-52, covering a four year period. Work has either been completed or is in progress to the extent of \$1,560,685.21; this cost does not include the cost of maintenance and repairs to the Prison System.

CENTRAL PRISON

Projects Completed:

1. Cold Storage Rooms Insulated	\$ 22,508.37
2. New Central Heating Plant	121,343.82
3. Cold Storage Plant Remodeled	92,552.80

4. New Storage Warehouse	118,443.56
5. Repairing of Wiring, Sewerage, Barber Shop, Water and Bonded Roof	44,290.87

Projects Under Construction:

1. Fire proofing offices and Guards Quarters	75,000.00
2. Carpenter Shop, Blacksmith Shop, Brush and Broom Factory, Vocational Class-rooms and Building, Machine Shop	100,000.00

TOTAL	574,139.42
-------	------------

WOMEN'S PRISON

Projects Completed:

1. Addition to Hospital	50,506.86
2. Kitchen and Dining Room Equipment	13,938.34
3. New Sewing Room	45,531.92
4. Farm Barn, Brooder House, Farm House, Re- modeling of Equipment Shed	15,488.67
5. New Heating Plant and Steam Tunnel	114,000.00
6. Sewerage and Water Distribution System	18,800.00

Projects Under Construction:

1. Combined Auditorium, Gymnasium and Chapel	100,000.00
2. Two New Honor Cottages	170,000.00
3. New Administration Building	40,000.00
TOTAL	568,265.79

CALEDONIA PRISON FARM:

Projects Completed:

1. Farm Managers Home	\$ 8,420.80
2. Grain Elevator	39,470.00

Projects Under Construction:

1. New Electrical System	15,000.00
2. New Laundry	36,000.00
TOTAL	98,890.80

CAMP POLK

Projects Completed:

1. New Water Line from Hillsboro Street	29,000.00
2. New abattoir for Beef Cattle, Hogs and Chickens	<u>36,000.00</u>
TOTAL	65,000.00

PRISON CAMPS

Projects Completed:

1. New Camp in Polk County	73,832.76
2. Six Camps Rewired	10,200.00
3. New Quarters for McDowell County Guards	916.44
4. Prison Camp Laundries	75,000.00

Projects Under Construction:

1. Raleigh Youth Center (Negro)	45,000.00
2. Three (3) Central Heating Plants	18,440.00
3. Remodeling of Vocational Shops, including Youth Camps	<u>31,000.00</u>
TOTAL	254,389.20

Two additional permanent improvements were made from the prisoners' Recreation Fund at Central Prison in Raleigh at a cost of \$11,997.52. The first expenditure of \$7,500.00 was used to air condition the auditorium and the amount of \$4,497.52 was used to construct a waiting room for persons visiting the inmates.
